RE: Devon Energy * Hackberry Containment * 2RF-105

Mr. Sawyer,

Your request for a six month registration extension is approved.

At this time, the OCD requests to review the weekly inspection and leak detection logs for this containment.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns please contact me.

Thank you,

Heather Patterson
