Latitude 32.66637 Longitude 104.49569

NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 60 B/PW	Volume Recovered 58 B/PW
Source of Release Water tank	Date and Hour of Occurrence 9/9/2015; AM	Date and Hour of Discovery 9/9/2015; AM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher, Heather Patterson, Randy Dade, Ian Dolly, Amber Groves, Mathew Hagman, Mark Naranjo & Dana Strang	
By Whom? Robert Asher/Yates Petroleum Corporation	Date and Hour 9/9/2015; 3:06 PM (Email)	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The water transfer pump malfunctioned due to lightning, causing the production tank to over flow. Vacuum truck(s) and roustabout crews were called.

Describe Area Affected and Cleanup Action Taken.*

The release was contained within an unlined, bermed battery. The release flowed around the 210-bbl water tank, behind the tanks and into a prior excavation that was currently open and being remediated from previous spills. The water pump was turned on by personnel and vacuum trucks were called to recover the spill. Impacted soils were hauled to a NMOCD approved facility. Additional vertical and horizontal delineation samples will be taken and analysis ran for TPH & BTEX (chlorides for documentation). If initial analytical results for TPH & BTEX are under RRAL's (site ranking is 10) a Final Report, C-141 will be submitted to the OCD requesting closure. If the analytical results are above the RRAL's a work plan will be submitted to the OCD. **Depth to Ground Water: 50-99' (approximately 75', Section 16, T19S-R25E, per Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 10. Yates Petroleum requests closure based on all work being completed as per previously approved work plan.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
