RE: COG Operating * BKU 18A Battery * 30-015-36263 * 2RP-3717

Amanda,

Your closure request is approved. Please send a signed Final C-141 for closure.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
