You are correct that the listing (50-99') is a typo. I've attached an amended letter to the work plan for your records.

Thank you,
Amber Griffin

RE: Yates Petroleum * Donahue Fed SWD #1 * 30-015-00087 * 2RP-3737

Amber,

Your proposed work plan for the above listed release is approved. In section III of your report, the ground water is listed as 50-99' but the body of the report cites 225' to ground water. The OCD is assuming that the listing (50-99') is a typo. Please let me know if this assumption is incorrect. Like approval by BLM is required.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson

Please find attached a work plan for the release that occurred at the Donahue Federal SWD #1 (2RP-3737).

Thank you,

Amber Griffin
