---

Per our meeting, you are approved to proceed with remediation efforts on the 4 aforementioned locations.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Mike, Heather, & Shelly

As per our conversation on 3/31/16, we have enlisted the help of Aspen Grow to aid us in the remediation of:

Gissler B 31

Gissler B 13

Gissler A 9

Stevens A TB

Aspen Grow will apply the Detox product a minimum of 4 applications, at that time we will run field samples to see if the levels are below Regulatory standards. Once we have some data, we will confer with you to determine the next course of action. Once the levels are below Regulatory standards, we will then delineate the remediated areas. If there are any questions or concerns, please feel free to contact us. Thank you.
