The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Mr. Bratcher/Ms. Tucker,

COG Operating LLC is reporting a release on the Airbus 12 Federal #2H (30-015-38503)

Unit D Section 12 Township 19S Range 31E

The release occurred at 10:00 am on 6/15/2016

Released: 3 bbls Oil ; 2 bbls PW

Recovered: 1 bbls Oil ; 1 bbls PW

This release was caused when the dump valve on the FWKO malfunctioned. Fluid was sent to flare as a result. Attached are a C-141 Initial, BLM Form 3160-5, and a map of the area for your consideration. I'd like to also request Arc clearance for this location at this time as well. If you have any additional questions please feel free to contact me.

Thank you,

Amanda Trujillo Davis
