**Cc:** Bratcher, Mike, EMNRD; Patterson, Heather, EMNRD; Rusty Klein  
**Subject:** Re: revised work plan, Endurance Resources Myrtle Myra 8

BLM approves the submitted work plan with the following stipulations:

1. S-3 will need to be removed to a depth of 3' with a confirmation sample pulled to verify you are below 1,000 mg/kg.
2. Sidewall confirmation samples will need to be gathered throughout the entire excavation to ensure horizontal impact has been addressed.
3. Area needs to be monitored to ensure restoration of Federal surface within a timely manner.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are

fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Hello Mr. Bratcher,

Thank you for the time you afforded Glen and I yesterday. Attached please find the work plan revisions per your guidance. Please let us know if this is acceptable to the NMOCD.

Respectfully,
