---

Great, thanks for the info. Your closure requests for 2RP-1684 and 2RP-1663 are approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather,

Yes, that is correct.

Thank you.

Bob,

Since you worked this release, can you please answer the question below from Heather?

Thank you,  
Amber

I just want to make sure I am clear on this one. It is my understanding that the green area was excavated to 2 feet and the yellow was excavated to 6 feet with a liner. Is that correct?
