SatchmoSWDState1_WorkPlan_082516 REVISED.pdf

I have re-attached a revised work plan including the information requested by NMSLO. Please note that I did not include analytical results or the site diagram with this revision because they have not changed since the original submittal. Yates would like to move forward with this clean-up as soon as possible.

Thank you,
Amber

Amber,

For NMSLO approval the off-pad area will need to be seeded and monitored according to our re-vegetation procedure that I have attached to this e-mail. Please update your work plan accordingly. You will also need a right-of-entry permit for this area as since it is off of the easement site. You may contact Conrad Kegel in our Santa Fe office to obtain this. I have copied him on this e-mail for your convenience.

Thank you,

Amber Groves

RE: Yates Petroleum * Satchmo SWD St 1 * 2RP-3736 * DOR: 6/3/16

Amber,

Your proposal for remediation of the above referenced release is approved. Please advise once remedial activities have been scheduled.

Sorry for the delay in getting this response back to you.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Thank you,

Mike Bratcher
