**RE: Yates Petroleum \* Windmill ATI State #3 \* 30-005-61963 \* 2RP-3922**

Amber,

Based on the conflicting well depth data in this area, the OCD feels we need to err on the side caution and consider this a site ranking of **10**. Your proposed excavation depths are approved with the following exceptions:

- Section 3 please excavate to 4 feet with TPH and chloride confirmation sample.
- Section 4 please grab a TPH and chloride confirmation sample meeting new RRAL.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike/Heather/Amber,

Please find attached a work plan for the release that was discovered at the Windmill ATI State #3 (2RP-3922).

If there are any questions, please let me know.

Thank you,

***Amber Griffin***
