Cliff,

Your proposal for remediation of the above referenced release is approved. Please advise once remedial activities have been scheduled. The adjacent property is part of the "Marks & Garner" lease, which I believe has been abandoned. OCD concurs with COG not being the responsible party for that area, and that the analytical data from that area is not indicative of the COG release.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike and Amber

This e-mail is to confirm our discussion concerning the remediation plan for the COG Bose Ikard 4 State Com #027H release. I have attached the information packet that we used in our discussion with a cover page describing the remediation plan that we agreed upon.

If you would please reply via e-mail with your concurrence on this plan, it would be greatly appreciated.

Thanks, Cliff
