RE: Burnett Oil * Gissler A 30 * 30-015-35336 * 2RP-3589

Johnny,

Your request for closure is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

All

Attached is the closure report and analytical for the Gissler A 30 well location. Per our last conversation after the initial sampling, we were able to remediate the area of SP-1 further. We were able to collect a 0-1' sample that measured 600 in a chloride field test. If you have any questions or concerns, feel free to contact us.
