Crystal,

No worries. I appreciate you expediting this one for us. I will include the updates in the closure report. We are planning on starting the remediation in the morning. As discussed, I will forward you my field chloride titration results once we hit 250 mg/kg at S-2.

Respectfully,

**Sheldon Hitchcock**

RE: Lime Rock Resources \* Falcon 3G Federal #7 \* 30-015-29126 \* 2RP-4048

Sheldon,

I have attached an updated version of the signed C-141 along with an adjoining updated Conditions of Approval (COA). This set I am sending right now is the one that was uploaded onto the OCD website cause it is the one that actually got an RP number assigned to it. The set I originally sent was just a temporary effort so that I could expedite the review of the work plan and issue an approval. This one is the current Initial C-141 and COA that you want to go off of. I hope that makes sense. If not call me and I will clarify.

The OCD tracking number for this event is 2RP-4048.

Thank you,

## Crystal Weaver
