**Subject:** WPX RDX 15-11 - fire and spill notification

Good afternoon,

On 12/4/16, WPX had a small fire on the RDX 15-11 well pad; API # 30-015-37093 located in qtr/qtr F, Section 15, T26S R30E. The fire did not spread beyond the SPCC containment berm and was most likely caused by malfunction of the heater treater. As a result, estimated 120 bbls of water and small amount of oil (approximately 1 bbls) got spilled. The majority of the spill was contained inside dirt SPCC berm. Approximately 1-2 bbls sprayed outside the containment.

The C-141 report will be submitted within 15 days from the incident.

Please let me know if you have any questions or concerns.

Thank you and have a great day,

*Karolina Blaney*
