RE: RKI/WPX \* RDX 15 – 11 \* 2RP-4032 \* DOR: 12/4/16

Karolina,

Your proposal for characterization/delineation of the above referenced release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher

**Subject:** RE: WPX RDX 15-11 - characterization plan

Good afternoon,  
Attached is the characterization plan for the RDX 15-11 spill/fire.  
Please let me know if you have any questions or suggestions.  
I'll proceed with the delineation when I receive your approval.  
Thank you,

**Subject:** WPX RDX 15-11 - fire and spill notification

Good afternoon,

On 12/4/16, WPX had a small fire on the RDX 15-11 well pad; API # 30-015-37093 located in qtr/qtr F, Section 15, T26S R30E. The fire did not spread beyond the SPCC containment berm and was most likely caused by malfunction of the heater treater. As a result, estimated 120 bbls of water and small amount of oil (approximately 1 bbls) got spilled. The majority of the spill was contained inside dirt SPCC berm. Approximately 1-2 bbls sprayed outside the containment. The C-141 report will be submitted within 15 days from the incident. Please let me know if you have any questions or concerns. Thank you and have a great day,

*Karolina Blaney*
