Brad,

You were left off of the CC list on this notification. The last I remember on this, we had asked for the groundwater investigation prior to installation or approval of vapor extraction?

Mike

**Subject:** Lime Rock Resources II-A LP ASAU 150 Trunk line release monitor well installation 2-RP 3893

Dear Mike Bratcher,

R.T. Hicks Consultants is sending notice for the drilling at Lime Rock Resources II-A, LP ASAU 150 Trunk line release site. On Wednesday 2/8/2017 Atkins Engineering will be on site at the ASAU 149 Trunk line release site with an air rotary rig. We will start with the install of a vapor extraction well and on Thursday the Monitor well will be drilled. Please contact me if further information is required.

Sincerely,

---
