Mr. Connolly,

As we discussed on the phone, you can find the reporting email chain below along with the attached initial C-141 and laboratory analysis. Please let me know if you have any questions or if you need further information.

Respectfully,

**Sheldon Hitchcock**

**Subject:** West Red Lake Unit #56 Initial C-141 (30-015-28451)

Good Afternoon Everyone,

The initial C-141 for the West Red Lake Unit #56 is attached. We collected surface water samples from the river on the day of the release. The analytical data (attached) which consists of upstream, entry point and downstream samples does not indicate the presence of any hydrocarbons or elevated chloride levels in the water. This is consistent with the fact that only a small amount of produced water (0.5bbl) entered the river.

The physical location of each sample point consists of the following: W-1: Upstream, W-2 Entry Point, W-3: Downstream.

Please let me know if you have any questions.

Respectfully,

**Sheldon Hitchcock**
