RE: COG Operating * Blue Thunder 4 Fed 1 * 2RP-3927 * DOR: 9/23/16

Greetings,

The Tetra Tech remediation proposal for the above referenced release is approved. Please obtain sidewall samples, as practicable, to insure lateral definition for TPH. For this release, a Petro Flag unit may be used if available, otherwise lab data is requested. Please include this data in the closure report. Please advise in the event proposed excavation extent is not achieved, and advise once remedial activities have been scheduled. Federal sites will require like approval from BLM.

If you have any questions or concerns, and for notification, please contact me.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: COG - Blue Thunder 4 Federal 9 - Work Plan Approval Request - 2RP-3927

Good Morning,

Attached is the work plan for the COG – Blue Thunder 4 Federal 9 located in Eddy County, New Mexico. Once approved, COG will implement the proposed work plan. Let me know if you have any questions or concerns.

Thank you,

Clair Gonzales
