RE: DCP Midstream, LP \* SC-1-13-1 Line Leak \* **2RP-4131** \* DOR: Unknown

Mr. Humphrey,

Your proposal for remediation of the above referenced release is approved. Confirmation sample data from the sidewalls and floor of the excavation will require OCD review prior to backfill approval. Please advise once remedial activities have been scheduled.

If you have any questions or concerns, please contact me.

Mike Bratcher  
NMOCD District 2  
811 S. First St.  
Artesia NM 88210

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
