Brad,

Thanks for the submittal. OCD shows Nearburg as operator of record for this well. Is there a change of operator in the works?

Thanks,

I greatly apologize, but please disregard my last email. I had a mistake in the well name and API. This attachment is correct.

Thanks

Attached is a C-102 and 3160-4 for the Neptune 31 Fed # 1 well that I called in the spill for. My understanding is Mewbourne is fracking a well in the area that caused our leak

at the Neptune battery as I explained over the phone. We are in the process of cleaning up the spill per our phone conversation. I will call the OCD in Artesia to report the spill. When I get the details we will file the C-141 and supply you a copy. I believe the Mewbourne well is named Pavo Macho 31. Not sure which well number. Thanks

PS: Mike I called Ray Padony and he told me to add you to the e-mail. Thanks Tim Green
