COG * Skelly Unit #973 Battery * DOR: 5-19-2017 * 30-015-36283 * 2RP-4214

Becky,

The above referenced release event is approved for closure. It is OCD's understanding that all impacted material in the containment has been removed and replaced and the liner inspected for integrity.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
