RE: 2RP-4239

Geoff,

The proposed sample points on the pad are approved by OCD.

Thanks,

Mike Bratcher
NMOCD District 2
811 South First Street
Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mike

For your review, attached is a map displaying the proposed locations for two additional auger holes labeled Proposed AH 9 and Proposed AH 10 at which further delineation will be performed prior to remediation. I look forward to your response. Thanks, Mike.

Geoff,

The delineation needs to be done up front. OCD wants to migrate towards the attached COA document.

Mike

May I do further delineation on the pad and at the well head at the time of excavation. Thank you.
