Subject: RE: Spill Remediation Plan - Indian Basin Station 210 (2RP-4332)

RE: OXY USA * Indian Basin Station 10 * M-10-21s-23e * 2RP-4332 * DOR:7/17/17

Ben,

The proposal for removal of visibly identifiable impacted material is approved, however, at this time, OCD requests a complete delineation of the site be performed prior to consideration of the remainder of the remediation proposal. Federal sites will require review and approval from BLM as well as OCD.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher
NMOCD District 2

Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Spill Remediation Plan - Indian Basin Station 210 (2RP-4332)

Mr. Bratcher/Ms. Weaver,

Trinity Oilfield Services, on behalf of OXY USA, Inc., is pleased to submit the attached *Environmental Site Summary & Spill Remediation Plan* for the Indian Basin Station 210 release site in Eddy County (2RP-4332). Trinity is prepared to begin the proposed remediation activities upon your review and approval.

If you should have any questions, comments, or concerns, please do not hesitate to contact me by telephone or email.

Thank you for your time and consideration.

Respectfully,
Ben J. Arguijo
