RE: RKI E&P (WPX) * Ginger Fed 1 * 2RP-3635 * DOR: 4/6/16

Karolina,

Your proposal for remediation/closure of the above referenced release is approved. Federal sites will require like approval from BLM.

Sorry for the delayed response, I misread the title and thought this was a final closure report.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
