Henryetta,

Thank you for sending this information to me. We'll review with the client and get back with you.

Thanks again,
Debi Moore

Good Afternoon Debi,

The road needed to the location and the location itself have not been surveyed or at least do not have any known or eligible archaeological sites. The proposed road that stems from the two track leading to the abandonment will need to be surveyed (along the flow line). You may have an independent survey completed or enroll the Operator into the Programmatic Agreement (PA) which covers an extensive area. I have attached the PDF and Word format for editing. If you have any questions feel free to ask. Submit the map of the proposed area to be disturbed or surveyed prior to submitting payment if you decide to use the PA.

Mike, Heather and Henryetta,

Please let this email serve as written release notification to both the BLM and the NMOCD. Attached please find a signed C-141 and site plan associated with the release discussed within this email chain. Specifics with regard to remedial efforts performed by Sport Environmental to date are included within the C-141. Please let us know the outcome of the archeology study to be performed by the BLM at the release site.

If you have any questions or comments, please feel free to contact me.

Thank you and have a nice weekend,

Debi Moore

Ms. Bilberry,

BLM inspectors have discovered a spill on a J. Cleo Thompson location. Please investigate and get back to me as soon as you can.

Thank you,

Hey Kellie,

Just wondering if this location has been reported to you yet. It was found by our Natural Resource Specialist while doing a survey last Thursday. My pictures were taken the next day. They have not communicated with me yet. No C141 has been across my desk. I have not given them approval for additional surface disturbance since I needed to check for Arc and such.
