**** External email. Use caution. ****

Becky,

I forgot to do my "Please note:" section on this one. So, please note that USP Fee #2 * 30-015-34438 has a previous release given case number 2RP-3747 that was never provided any follow up efforts from COG after the initial C-141 which I have attached above. Could you please provide some follow up information on what efforts have been done for this one? It was apparently a small amount that got out of the containment during this release according to the initial C-141. If nothing has been done for it, then I will ask is it possible that you all consider remediation for this release during the remediation of the current 2RP-4280?

Thank you,

Crystal Weaver

RE: COG * USP Fee #2 * 30-015-34438 * 2RP-4280

Becky,

Sorry for the delay on this one. It and quite a few others had been misplaced. I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4280. Considering the delay OCD will accept release characterization work plans 15 days from today's date.

Thank you,

Crystal Weaver
