Good Morning Clair,

Can you ensure that all coordinates that reflect the spill location is accurate? I have the coordinates to the well as a reference to the actual spill location. The aerial image coordinates are also off. Please correct in the closure report. Thanks.

RE: COG * Skelly Ut 743 * **2RP-4285** * DOR: 7/6/17

Greetings,

OCD concurs with BLM approval of the proposal for remediation of the above referenced release. OCD does require liner placement to be 4' bgs, at a minimum. Please advise once remedial activities have been scheduled.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
