Type of Release: Mixed Fluids						Oil & 68 P		Volume Recovered: 100bbls (72 Oil & 28 PW)					
Source of Release: Tank Battery Overflow						Date and Hour of Occurrence: 5/11/2017 Time: Unknown			Date and Hour of Discovery: 5/11/2017 Time: 7:00 am				
Was Immediate Notice Given?					If YES, To Whom? OCD: Mike Bratcher & Crystal Weaver BLM: Shelly Tucker								
By Whom? Sheldon Hitchcock-Talon/LPE						Date and Hour: 5/11/2017 1:09 pm							
Was a Watercourse Reached?						If YES, Volume Impacting the Watercourse.							
If a Watercourse was Impacted, Describe Fully.*													
Describe Cause of Problem and Remedial Action Taken.* A failure with the automated alarm system resulted in a tank overflow inside of the bermed battery. The system was repaired and put back into service.													
Describe Area Affected and Cleanup Action Taken.* The berms of the tank battery failed which resulted in fluid flowing downhill to the north. The fluid initially pooled on the Eagle 34 K Fed #86 location then it continued downhill into the pasture. The fluid continued in the pasture for approximately 500-feet. Talon/LPE mobilized personnel to conduct a site assessment and soil sampling. Upon receipt of analytical results from the soil sampling event a remediation work plan was developed and subsequently approved by NMOCD and BLM. The remediation was conducted in accordance with the approved work plan.													
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
