Subject: Sunoco Pecos River Station Truck Unloading / Bridger
Attachments: Sunoco Pecos River Unloading Station.pdf; Sunoco Pecos release scan C-141.pdf

Mike,

Please see attachments for the groundwater data, site maps along with the lab data for the Sunoco/Bridger Unloading Station.

Did you receive a workable copy of the initial C-141 as requested?

Everyone wants this cleaned up but as to not jeopardize the structural integrity of the tanks at this location, what are our options? Also looks like there has been some historical issues out here.

Please call to discuss. Thank you.

Respectfully,

Kimberly M. Wilson
