If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* This release was caused when an unknown person shot at the flowline causing damage to the poly flowline. The leak was stopped and the polyline repaired.		
Describe Area Affected and Cleanup Action Taken.* The release remained on location around the wellhead. Concho had the spill site sampled to delineate any possible impact from the release and presented a remediation work plan to the NMOCD for approval prior to any significant remediation work. All work has been completed according to the workplan approved by the NMOCD on March 16, 2017.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
