NATURE OF RELEASE

Type of Release: Fire (crude oil and produced water)	Volume of Release: 1.96 BPW, 3.39 bbls oil	Volume Recovered: None
Source of Release Heater-treater	Date and Hour of Occurrence: 5/27/17, Unknown	Date and Hour of Discovery: 5/27/17, 7:30 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher, Crystal Weaver (NMOCD), Jim Amos, Shelly Tucker (BLM)	
By Whom? Jacob Foust	Date and Hour: 5/28/17, 11:00 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*

The battery's main heater-treater ignited. The fire department was called and all the wells feeding into the battery were shut in. Estimating approximately 17 bbls of crude oil (in addition to the amount in the soil listed above) were lost to the fire from the main heater-treater. The fire was extinguished at 11:30 p.m.

Describe Area Affected and Cleanup Action Taken.*

The main heater-treater and nearby equipment were damaged. Approximately 300 ft² of pasture immediately east of the vessel containment area were affected by the fire and 27,500 ft² of pasture were affected by misted crude oil. Micro-Blaze® was applied to the affected pasture on June 1, 2017. The facility was torn down and fully remediated with contaminated soils taken to an NMOCD approved facility with soil samples being retrieved and analyzed at an NMOCD approved laboratory. Clean non-impacted imported soils were brought back in and the area was compacted and contoured to the surrounding area. A detailed report of the remediation activities has been submitted as Poker Lake Unit 213 Termination Request.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
