RE: Marathon Oil * El Presidente State #3H * 30-015-42769 * 2RP-4539

Jason,

This Initial C-141 was converted into an Initial/Final and thus the case has been closed on our end, due to OCD staff's interpretation of the context of this release according to what Marathon wrote on the original Initial C-141. Because it was stated that no ground surface impact occurred and it is assumed that according to the write up on your C-141 this was stated to be only a gas release.

Thank you,

Crystal Weaver

Mike and Crystal,

Attached you will find the C-141 report for our fire on the El Presidente State 3H. I also attached a couple pictures of the tank battery showing no surface impact. Please let me know if you have any questions.

Thanks,
Jason
