Subject: RE: 2RP-4490, Antelope Battery Delineation Plan, December 15, 2017
Date: Thursday, March 8, 2018 10:12:00 AM

RE: Legacy * Antelope Tank Battery (API Antelope 36 State COM #1 * 30-015-32040 * 2RP-4490

Brian/Sarah,

This delineation plan is approved. Delineation separation intervals of 2' after 4ft depth is reached may have to be revisited depending up data results and work plan proposal. Based on site map there is no demarcation of where the point of release occurred, therefore OCD will state this, OCD prefers that one of the delineation points be as close to the point of release as possible. Make sure to mark all tables and maps with sample name labeling when submitting actual work plan proposal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact Mike Bratcher and/or myself in the District II Office.

Thank you,

Crystal Weaver

Subject: 2RP-4490, Antelope Battery Delineation Plan, December 15, 2017

Dear Ms. Weaver and Mr. Bratcher,

Larson & Associates, Inc. (LAI), on behalf of Legacy Reserves Operating, LP (Legacy), submits the attached delineation plan for a produced water spill at the Antelope Battery (2RP-4490) in Eddy County, New Mexico. Your approval of the delineation plan is requested. Please feel free to contact Brian Cunningham with Legacy at (575) 391-1464 or bcunningham@legacy.com, me at (432) 687-0901 (office) or (432) 664-5357 (cell) or Mark Larson if you have any questions.

Respectfully,

Sarah Johnson
