Subject: Re: Seven Rivers Compressor Station

Mike,

I appreciate the help on this. As I had said EOG is going to be coordinating the remediation activities so we will keep you both informed of our progress.

Thanks,
Kerry Egan

RE: Lucid Energy (Formerly Agave Energy) * Seven Rivers Compressor Station * **2RP-3559**

Kerry,

As we discussed earlier today, your proposal for remedial activities at the above referenced site is approved. The remediation proposal was entered into OCD database (2RP-3559) when received, but without a formal approval.

Sorry for any confusion or inconvenience on my end.

If you have any questions or concerns, please contact me.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
