Ms. Weaver,

As per our phone conversation yesterday afternoon: The two spills are in different areas and do not overlap. I have the same contractor (Tetra Tech) handling both of the releases. At the moment I have not received a work plan for the second release. Please let me know if you need any additional information.

Thank You,

RE: COG * McIntyre B #10 * 30-015-34775 * 2RP-4284

Becky,

Sorry for the delay on this one. It and quite a few others had been misplaced. I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4284. Considering the delay OCD will accept release characterization work plans 15 days from today's date.

Please note: A work plan was approved on 8/4/17 for a previous release at this same location given

case number 2RP-4172. Is there any potential for both of these releases to be worked at the same time?

Thank you,

Crystal Weaver
