Rebecca,

I guess I should have clarified with you first.

The above release did occur at the well and not at the facility, correct? If so, please correct the C141. Thanks.

Crystal,

The event with case number 2RP-4172 occurred at the facility which is located at the #4 well. This recent release is at the #10 well.

RE: COG * McIntyre B #10 * 30-015-34775 * 2RP-4284

Becky,

Sorry for the delay on this one. It and quite a few others had been misplaced. I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4284. Considering the delay OCD will accept release characterization work plans 15 days from today's date.

Please note: A work plan was approved on 8/4/17 for a previous release at this same location given case number 2RP-4172. Is there any potential for both of these releases to be worked at the same time?

Thank you,

Crystal Weaver
