OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

All

I was checking to see if the attached delineation report and remediation plan was received and if y'all had any objection to the path forward. This site burned and is scheduled to be rebuilt next week. We need to know as soon as possible so we can carry out or reschedule rebuild activities. Thank you for your time and efforts in this matter.

Regards

Coty
