Subject: RE: Initial C-141 - Nash Unit #005 1-17-18

Hi Shelly,

The release originates just north of the well head where the steel flow line meets poly on the well pad. Then it flows WNW in a narrow, fairly straight flow path for approximately 370 feet until it terminates at GPS 32.304552 N - 103.931858 W and yes, the drill pit should be addressed now as well. Please let me know if I can be of any more assistance and contact me anytime with questions. Have a good week.

Respectfully,

Amy C. Ruth

Amy,

Thank you for the notification and the C-141.

Please be aware there is an archaeology site to the west of the location. Please send me GPS cords for the flow path. Also, while you have equipment onsite to clean up this release, let's discuss addressing the old drill pit at the same time.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

RE: XTO * Nash Unit #5 * 30-015-21800 * 2RP-4598

Amy,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4598, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action immediately since this one had a due date of 3/1/18 and that has passed.

Thank you,

Crystal Weaver
