RE: XTO/BOPCO * Big Eddy Unit D15 * 30-015-40397 * 2RP-4582

Amy,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4582, please refer to this tracking number on any and all submissions sent in to the OCD. Since this was a flare related release that had a very small reported volume and was stated to have hit the ground only on the pad, OCD would be obliged to receive a Final C-141 with a statement similar to that of *no fluids hit ground in the pasture. Since the area impacted remained upon the pad the materials that fluids did come into contact with were removed and replace* (an accompanying photo of the site showing pad material was replaced is optional). Please remit something of this nature by no later than 3/9/18.

Thank you,

Crystal Weaver

Subject: Release Notification - BEU DI5 CTB (#30-015-40397 API for BEU DI5 #004H)

Good Morning,

This is to notify you that yesterday at approximately 10:45 am while performing maintenance activities there was an accidental release of fluid to the flare stack which resulted in a small fire. There were no injuries. We will provide details with the submission of a form C-141. Please contact me with any questions or concerns. Thanks. --Kyle
