Subject: Pinnacle State 2 spill - initial notification

Good morning,

WPX had a spill yesterday evening, 11/2/17, at 6pm. The spill occurred on a lease road south of the Pinnacle State 2 well pad (API # 30-015- 27071), coordinates of the spill: 32.35043, -104.04907. It appears that heavy equipment (i.e. low boy trailer) damaged a surface poly line which resulted in ~18 bbl spill of produced water. 13 bbls were recovered with a vacuum truck.

The spill will be cleaned up as soon as the line locates are completed. The C-141 report will be submitted by 11/17/17.

Please do not hesitate to contact me if you have any questions.

Thank you,
