Mr. Mike Bratcher

TETRA Technologies Inc. (TETRA), a contractor to Devon Energy Production Co, LP (6137) (Devon) wishes to submit a Proposed Delineation Workplan (Workplan) to the New Mexico Oil Conservation Division (NMOCD) to address the release at the Cotton Draw Unit 294 H site on December 21, 2017 (Case No. 2RP-4543). Attached is the proposed Workplan for your review and comments.

I have also copied Olivia Yu, NMOCD because a similar release occurred from the same water source in District 1 (1RP-4867). We have submitted a similar Workplan to Ms. Yu for that release.

Should you have any questions or comments, please do not hesitate to contact me at 281-364-5116.

Best regards,
cliff
