RE: WPX/RKI * East Pecos Federal COM 22 #6H * 30-015-42281 * 2RP-4577

Dear Ms. Weaver and Mr. Bratcher:

Attached please find the Soil Assessment and Remediation Work Plan and the first laboratory report for the above referenced release. I will be sending the other lab reports separately.

On behalf of WPX/RKI, we are respectfully requesting your approval to proceed with these remedial actions.

Please let us know if you have any questions or concerns.

Thank you.

Respectfully submitted,

Kimberly M. Wilson

RE: WPX/RKI * East Pecos Federal COM 22 #6H * 30-015-42281 * 2RP-4577

Jim,

Thank you for the response, but we really need the update sent by the date we had originally requested which would now be tomorrow 2/28/18. OCD can provide extensions on deadlines at the request of the operator, if valid reasoning for the request is provided. However, an update of some sort on where the project is at by tomorrow would still be realistic to ask for even if you all request an extension with valid reasoning.

So please provide some sort of update by tomorrow as requested and if you have valid reasoning to ask for an extension on getting a work plan or something of that nature together then state it by no later than COB tomorrow.

Thank you,

Crystal Weaver

Crystal,

An update on this project will be provided as soon as possible. Please allow for this update to be delivered to OCD no later than 3/7/2018.

RE: WPX/RKI * East Pecos Federal COM 22 #6H * 30-015-42281 * 2RP-4577

Jim,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4577, please refer to this tracking number on any and all submissions sent in to the OCD. Please provide an update on this project by no later than 2/28/18.

Here are some ideas on what we would consider an update: I know we met with you all on 2/13/18 but we still need to document where the project is at by this benchmark of time. So an update or date that OCD can expect to receive a work plan etc. would be appreciated. Even if you want to send in what you brought with you for the meeting with an update any of that will work. We don't scan in stuff that is brought in for meetings unless it is deemed by us to be relevant to do so since we usually don't have the time to make such efforts. So if you want to write a blurb on what was discussed and provide an update with where the progress is at or heading time wise for this project, along with sending in what supporting documents you all brought with you to the meeting that would suffice.

Thank you,

Crystal Weaver

Subject: Initial Spill Notification East Pecos 22-6

We had a spill from an above ground produced water line at the East Pecos Fed 22-6H this afternoon. The source of the spill has been stopped there is no water impacted or threatened. Volume of the spill is still being estimated, but will be a reportable quantity. A C-141 will be submitted when details of the incident are confirmed.

Please feel free to contact me if there are any concerns.
