Crystal,

I've contacted Souder Miller & Associates to conduct the remediation of this release, and they will also be addressing 2RP-4225 at the same time.

Thank you,

Chase

RE: EOG * Julie #2 Battery * 30-015-25905 * 2RP-4531

Chase,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4531, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 1/26/18.

Please note: Listed under the API number mentioned above another open case number was found of [2RP-4225](#) which is also for the Julie #2 Battery. All that I could find in our system was the Initial C-141 for this release which I attached above. If practicable OCD would like to request that both of the 2RP-4531 and 2RP-4225 releases be remediated at the same time.

Thank you,

Crystal Weaver
