Hello all,

Thanks for the update Becky. Please advise OCD of the date when delineation/remedial activities will be scheduled for this release.

Thanks again,

Crystal Weaver

Ms. Weaver,

This 7/26/17 (2RP-4320) spill site was also given to Tetra Tech. This site needs to be drilled for delineation sampling. They have been attempting to get a driller free to perform the work.

Thank You,

Becky Haskell

RE: COG * Illustrated Man Fee COM #1H * 30-015-41025 * 2RP-4462

Sheldon,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4462, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 11/30/17.

Please note: While looking through the records under the above mentioned API number I came across the open case number of 2RP-4320. The last submission I have in our records is me sending out the standard email I send notifying of the assigned RP number, permit approval, and COA attachment. This release is from 7/2017. Please provide a status update on COG's efforts regarding this release by no later than 11/30/17 as well.

Thank you,

Crystal Weaver

Subject: (Corrected C-141 Initial) Illustrated Man Fee Com #001H (30-015-41025) 10/27/2017

Ms. Weaver/Ms. Tucker,

Please see the attached corrected initial C-141. The release was initially reported to be on private surface. However it has been determined that the location where the release occurred north of the Illustrated Man Fee Com #1 well site is BLM surface. I apologize for the inconvenience. If you have any questions or concerns please contact me.

Thank you,
