Subject: Re: [EXTERNAL] Devon Spica 25 Fed #3H Work Plan

Vernon,

I do not have an issue with the proposal. However, upon closure, the location will have to be sampled to ensure that chlorides have been adequately addressed to ensure proper reclamation is achieved.

Must have like approval from NMOCD.

*** Lesser Prairie Chicken (LPC) timing stipulations are in effect 1 Mar- 15 June annually.

*** Tis the season for African Rue. Please do a 360 scan around your well locations and lease roads.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

I have forwarded this proposal to Henryetta Price. She is the AO for this release.

NOTE: LPC Timing Stipulations are in effect - from March 1st through June 15th. Please plan remedial activities accordingly. Check for African Rue...treat (before it gets out of control).

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker
