Wade,

If the C-141 that was submitted is incorrect, please send a corrected copy. Be sure the email clearly states it is a corrected (or amended, revised – whatever you want to call it) copy. Also, clearly mark the C-141 as a corrected copy, large letters at the top of the page preferred.

Thanks,

Mike Bratcher

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
