RE: Marathon Oil Permian * El Presidente St 4H * **2RP-4557** * DOR: 12/24/17

All,

This proposal for remediation of the above referenced release is approved with the following:

As stated, additional vertical delineation for chloride will be required at AH-2 and AH-3. Confirmation samples will be required from excavation bottoms and sidewalls. Please advise once remedial activities have been scheduled. Also, notify the OCD District office in the event proposed excavation depths are not achieved.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
