OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Please find the attached Delineation Workplan and remediation proposal for the COG Admiral Fed Com 2H Battery (2RP-4664) that we discussed in your office on June 8, 2018. COG is looking forward to the OCD's approval.

Shelly – COG requests that you review this plan and look forward to the BLM's approval as well.
