NATURE OF RELEASE

Type of Release: Oil and Produced Water	Volume of Release: 14 bbls Oil ; 52 bbls PW	Volume Recovered: 3 bbls Oil ; 20 bbls PW
Source of Release: Lightning	Date and Hour of Occurrence: 8/9/2016 unknown	Date and Hour of Discovery: 8/9/2016 9:00 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher – NMOCD / Shelly Tucker – BLM	
By Whom? Amanda Trujillo Davis	Date and Hour: 8/9/2016 3:38 PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

This release was caused when lightning struck the facility. The damage was found during the morning route and no fire was reported with the incident. Vacuum trucks were dispatched to recover all standing fluid.

Describe Area Affected and Cleanup Action Taken.*

The majority of the release remained within a lined facility; however a light spray impacted the pasture. A portion of the facility was a total loss. Concho sampled the adjacent pasture area impacted by a light overspray. Analytical results demonstrated chloride, TPH, benzene, and BTEX concentrations were below NMOCD standards. A final inspection has been conducted regarding the clean-up efforts. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
