Robert,

Your Form C-147 registration for the above referenced produced water recycle facilities have been approved/accepted, and assigned the above 2RF OCD tracking numbers. Please reference these numbers on any future correspondence, and when submitting monthly Form C-148 volume reports. The approved documents will be available for review on OCD OnLine under Admin Permits.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Brad,

Any update on this application for a Recycling facility.

Thanks
Robert

Brad,

Find attached an application for a Recycling Facility Only number. Our plan is to pull produced water off the existing SWD line, filter with a 25-micron filter and send over to the fracture treatment. If our schedule holds up this will be used from 10/03/2018-10/14/2018.

As on the other permits, we will submit the monthly volume to OCD and submit a closure report within 60 days after finishing the project.

Landowner will be contacted.

If you are not the person to send this to please let me know whom to contact.

Thanks
Robert
